

Technical Specification

Dimensions	Height: 20.2" IWidth: 10.9" I Depth: 9.45"
Weight	7.5 kgs (with cart & battery)
Battery Recharge Time	2.5 hours
Oxygen Concentration	87% - 95% at sea level at all settings
DC Power	12 - 15 VDC I 15 amps
AC Power	Universal Input: 100 - 240 VAC 50 - 60 Hz I 2.0A maximum
Battery Duration	5.75 hours @ 2 pulse at 20 bp 2.5 hours @ 2 LPM continuous
Oxygen Flow Rate (Pulse 15-40 BPM)	Continuous: 0.5 - 3 LPM in 0.5 increments Pulse: 0.5 - 6.0 in 0.5 increments (8 - 96 ML)

2 year warranty

Air Travel

OXLIFE INDEPENDENCE

YOUR OXYGEN PRESCRIPTION AT HOME OR OUTDOORS

- **Pulse setting:** 12 pulse settings and 3 LPM continuous flow, giving you total flexibility to comfortably travel.
- **Battery:** Swappable batteries allowing you to extend the battery time without needing to charge the entire device.
- **2 in 1:** Functions as a both a portable and stationary device in only 1 device.
- **Built:** Robust, reliable, and durable with a sturdy frame and inbuilt wheels.
- **Transportable:** Easy to carry in a car, train, or flight.

SUPERIOR PRODUCT FEATURES

- Industry leading durability and reliability = Lower operating costs
- Energy smart technology ® = Longest battery life in class
- Easy battery swap while device is in operation
- Lightweight metal/Polycarbonate with best in class components
- Integrated cart with 6-inch wheels offers best in class maneuverability

Customisable:

Additional batteries, car charger, and external battery charger are available for extended travel
